

Renewable and Low Carbon Energy Supplementary Guidance

Information Drop-In

9 August 2pm – 8pm

Birnam Arts & Conference Centre

Perth & Kinross Council is producing guidance to help developers and communities to develop and review proposals for a range of renewable and low carbon energy technologies. We are currently consulting on the draft guidance, and are holding an information drop-in event at Birnam Arts to support the consultation.

On display will be information on renewable and low carbon technologies, our draft guidance and spatial strategies and staff will be on hand to answer your questions. Everyone is invited to come along to find out more, and we welcome your ideas and feedback.

For more information on the consultation go to www.pkc.gov.uk/renewablesguidance

In collaboration with the Birnam Climate Café, the Council is also bringing a thought provoking exhibition on sustainability, human rights and the environment, to Birnam Arts. **Whole Earth?** will be officially opened with a talk by photographer and project creator, Mark Edwards at 2pm on 6 August.

Birnam Arts is just off the A9 in the centre of Birnam, or two minutes walk from Birnam and Dunkeld train station.
