

Our Ref: NW/11/01/O-7604

Date: 16/06/2017

Dear Sir/Madam,

**4TH GENERATION TERM CONTRACT FOR MANAGEMENT AND MAINTENANCE OF
THE SCOTTISH TRUNK ROAD NETWORK – NORTH WEST UNIT
A9 SOUTH OF TRINAFOUR SOUTHBOUND – RESURFACING**

BEAR Scotland, working on behalf of Transport Scotland, are planning to undertake essential resurfacing operations on a section of the southbound A9 Trunk Road south of Trinafour. The site is 718m in length and is located towards the end of the southbound dual carriageway. A location plan has been included to accurately identify the site.

The resurfacing is provisionally programmed between 17th and 28th July 2017. The works are to be undertaken between the hours of 8am and 5pm each day, with no works planned for the weekends in an effort to minimise the impact during busier periods.

To ensure the safety of the workforce and members of the travelling public, the southbound carriageway will be subject to a 10mph convoy system, during the above working hours. Out with these times, a lane closure will remain in effect with a 30mph speed limit.

Traffic on the northbound carriageway will be unaffected.

BEAR Scotland and Transport Scotland wish to thank the local community in advance for their patience during these essential works.

If you require any further information or would like to discuss the works further, please do not hesitate to contact Ross Newlands by email NWconsultation@bearsScotland.co.uk.

Yours Faithfully,

A handwritten signature in black ink, appearing to read "J. Finlayson", written over a thin horizontal line.

Jamie Finlayson
